**The presentation and aims of the project:**

The Local Government of Mórahalom achieved the project called “FENNREHAB” within the Hungary-Romania Cross-Border Cooperation Programme 2007-2013 supported by the European Union, European Regional Development Fund and the Republic of Hungary co-financing with Romania.

The program aims at enhancing the joint social and economic development of the Hungarian-Romanian border area. The further aim of the program is to familiarize the visitors with the rural life and stock-farming besides to present at one time used tools.

**The planning activities by the leading beneficiary:**

The development of the buffalo farm includes the following:

- Education-presentation house,
- Storage room for machines and tools,
- Roofed buffalo,
- Training and measuring centre.

**Consiliul Local Pecica**

The propose concerns to take in 10 buffalos (9 bison and 1 buffalo bull).

The native vegetation in the parts of Maros flood-plains can be revitalized by grazing. The non-native vegetation will be eliminated. One pavilion will be built which observes the whole area (the farm and the grazing-land).

**Asociația Ecologică „Natura” Pecica**

Clothes purchase in which checking and observation of the area can be solved

Buying monitoring devices: field-glasses, notebook, camera and video-camera

The caretaker’s lodging will be furnished

The promotion of the project includes the following: organizing press conferences, compiling advertisements and establishing web site
